

## HomeWork # 08

### Task 1:

**Actors** are customers and technicians.

**Objects** are account info, authentication, upgrade, help, transfer cash, withdraw cash, diagnosis and replenishing.

### Task 2:

#### **Check Balance:**

The customer will be able to check balance after entering card and pin code.

#### **Withdraw Cash:**

The customer can withdraw cash after entering the pin code and if he/she has enough balance.

#### **Transfer Cash:**

The customer can transfer cash after authentication.

**Alternative path** in this scenario is that users can also use a Bank App for transferring money.

#### **Upgrade:**

The technician can upgrade the ATM system.

## Task 3:
